Recommendation Letter

To Whom It May Concern,

I am pleased to recommend **Ravi Purvesh Mudaliar**, who worked with us as **Sales Operation Internal** from October–December 2025. Even within a short, high-intensity window, he proved he can operate at a level typically expected **from far more experienced hires: structured execution**, clear stakeholder communication, and governance that turns meetings into outcomes.

What Purvesh delivered (verified contributions):

- **Program execution across 2 strategic initiatives** ("One Tender Team" and "Triple the Volume"), supporting leadership alignment and cross-functional delivery across EMEA and the Americas.
- **One Tender Team (NX × CP):** built a harmonised tender operating model and delivered an end-to-end blueprint (6 phases, ~30 steps), mapping ownership across 5 functions (Sales/EBD, Tender, Product, Legal, Management) and embedding governance checkpoints (pricing validation + risk/approval gates).
- **Triple the Volume**: owned a 3-part governance execution pack (minutes, decision log, action tracker), converting discussions into clear decisions, accountable owners, and deadlines—reducing ambiguity and preventing rework.
- **Operating discipline**: standardised documentation and decision records so teams could move faster with fewer escalations and less back-and-forth.

Purvesh is high-ownership, detail-accurate, and calm under pressure. He writes in a way leaders can act on, and he brings clarity where processes are messy. I strongly recommend him for PMO / Project Coordination, Commercial or Sales Operations, Tender/RFQ Operations, and Process Improvement / Operational Excellence roles in Austria or any international environment. I would rehire him without hesitation.

Javier Moré
